

Avetta Expert Services

A combination of professional services and modern solutions that help you drive optimal supply chain risk management outcomes

When it comes to supply chain risk management, very rarely do we find a one-size-fits-all solution due to diverse organizational culture, capability, and size. Companies often lack standardized end-to-end solutions that can provide complete supply chain visibility. Besides, many do not have the time or resources to uncover and address the risks.

Avetta One Expert Services – Embracing a Consultative Approach to Address Multi-Disciplinary Supply Chain Risk Management Needs

At Avetta, we understand that every supply chain is unique that comes with a diverse range of risk factors. This makes creating a holistic compliance framework a necessity for businesses. This is where Avetta One provides answers.

With Avetta One Expert Services we combine our risk management tools, benchmarking data, and subject matter expertise to help you design and develop a supply chain risk management program that is aligned with your organizational goals and leads to optimal outcomes. Our team of subject matter experts with significant domain knowledge and operational experience, provide a consultative approach to solution your supply chain risk management needs. Additionally, we partner with our customers to assess their risk management program and develop solutions that are tailored to their specific need.

Advisory

- ⌚ Experienced professionals with domain knowledge in supply chain risk management partner with our customers to assess the effectiveness of their risk management programs and develop solutions that are tailored to their specific need. Areas of expertise include health & safety, financial viability, sustainability & ESG, diversity qualifications, cybersecurity, workforce risk and liability.
- ⌚ Peer-networking events for customers to review and discuss best-practice research designed to enable better decision-making in their respective departments

Custom product training services

Avetta's training services are aligned to customers' business needs and associated workflow. We provide 2-hour virtual training events that go hands-on with your company's own data. With our training services, your suppliers can start honing their skills and earn Avetta certifications.

Technical support services

Technical expertise providing the client with guidance and best practices in requirements definition, system capability, and implementation of SSO projects, basic Avetta API access, and the development of client specific custom integration work.

Implementation support services

Skilled and certified Project Managers to guide the client through the implementation process. This support includes the sharing of best practices, benchmarking, and project management essentials that include scope management, schedule management, communications management, change management, risk management, and quality management.

Value Delivered

Objective assessment

Get an unbiased view from an independent team of over 55 certified safety and sustainability auditors from across the globe.

Greater visibility

Uncover leading indicators of risk for clear insights of potential supply chain disruptions.

Enhanced performance

Identify saving opportunities, improve spend forecast and strengthen partnerships.

Increased confidence

Clients can deepen trust in Supplier performance by verifying it, ensuring their standards are upheld.

Less complexity

Proactively manage risk by ensuring your company is covered and suppliers have sufficient insurance coverage.

Reduced risk

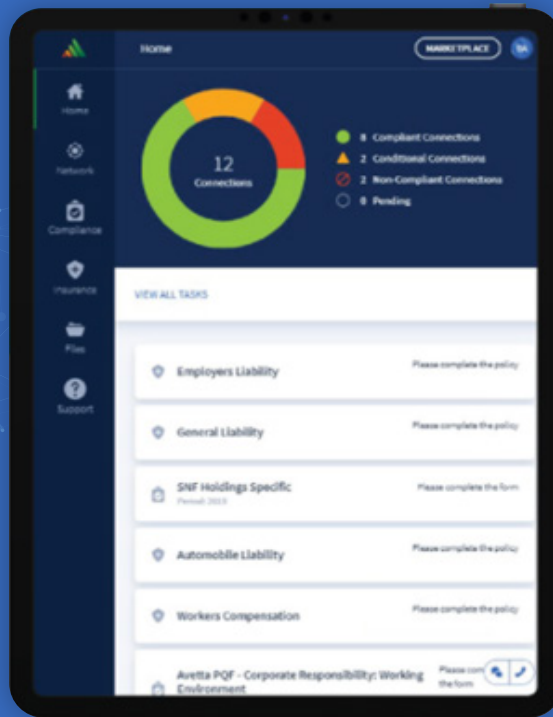

Eliminate the heavy lifting of collecting, verifying, and monitoring supplier insurance and spend more time closing gaps.

Peace of mind

Leverage Avetta's decades of experience and expertise to safely and efficiently managing supplier compliance.

Manage Risk for any Supplier

Built with complex supply chains in mind, Avetta organizes and keeps all of your supplier documentation up to date, accurate, and available at any time.

About Avetta

The Avetta SaaS platform helps clients manage supply chain risk, and their suppliers, to become more qualified for jobs. For the hiring clients in our network, we offer the world's largest supply chain risk management network to manage supplier safety, sustainability, worker competency and performance. We perform contractor prequalification and worker competency management across major industries, all over the globe, including construction, energy, facilities, high tech, manufacturing, mining, and telecom.

For suppliers in our network, our audit and verification services help lower their safety incidents rate by 29%. As a result, about 50% of members find additional job opportunities within the first year of joining. In addition, our suppliers receive privileged access to the Avetta Marketplace, where dozens of partners offer special discounts for business services like insurance and work gear. Avetta serves more than 500 enterprise companies and over 125,000 suppliers across 120+ countries.
