

Assessing Supplier Financial Health

Fiscal Risk Mitigation Powered by Experian

Ineffectively managing financial risk comes with real repercussions for your bottom line and your reputation. The business failure of even one critical supplier can result in project delays, violated contracts, damaged credit and other costly errors. Avetta's partnership with Experian® makes monitoring the financial health of your vendors as easy as one click into Connect. In today's volatile market we give you confidence in your supply chain.

01 Evaluate Large Groups with Minimal Effort

Whether you're concerned about one supplier or all of them, the Avetta Experian Integration makes analyzing your supplier base easy. During the process each supplier receives specific ratings and key metrics unique to their business.

02 Screen Out Risky Accounts

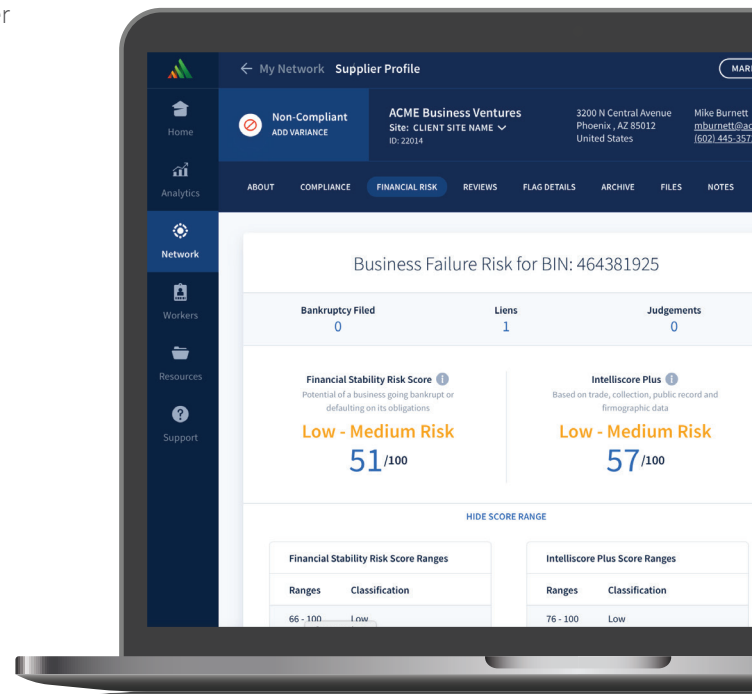

With the data at your fingers, it's easy to include supplier financial health into the qualification process. Keep your standards high and your risks low by building appropriate compliance rules into your supplier management plan.

03 Make Quick Decisions with Automated Reviews

The financial data collected by Experian is renewed periodically, so you can feel confident you're receiving an up-to-date look on all of suppliers. This information allows you to not only make faster decisions but more effective ones as well.

04 Get Deeper Insights When Desired

While a quick snapshot is nice, we understand the need to expand your visibility beyond just a few scores. Experian offers a portal called Business IQ where you are able to pull detailed credit reports on your suppliers and add them to a watchlist.

How it Works

Experian integration pulls supplier data into their system for analysis. Results are then sent back to the Connect dashboard for easy viewing.

Suppliers are given a Financial Stability Risk Score (1-100) that indicates their likelihood of defaulting on financial obligations or going bankrupt.

Suppliers also receive an Intelliscore Plus rating that identifies the suppliers who may be slow to pay but are likely to follow through on their financial commitments.

Any liens, judgments or bankruptcies from the supplier are also displayed on the Connect dashboard.

Clients are able to monitor the ratings and apply compliance rules if desired.

HIDE SCORE RANGE

Financial Stability Risk Score Ranges

Ranges	Classification
66 - 100	Low
31 - 66	Low-Medium
11 - 30	Medium
4 - 10	Medium-High
1 - 3	High

Intelliscore Plus Score Ranges

Ranges	Classification
76 - 100	Low
51 - 75	Low-Medium
26 - 50	Medium
11 - 25	Medium-High
1 - 10	High

Where can I find additional information on Experian scoring?

For more information on Experian scoring and how it can help your business, you can go to experian.com/business-information and navigate to Scores > Financial Stability Risk Score or Scores > Intelliscore Plus to view their Product Sheets.
