

# Systems Integration

## Verified Prequalification Data Without the Administrative Burden

Your business has multiple systems that help your company grow. Unlock the power of your internal ecosystem by enriching other solutions with Avetta's supplier prequalification data. Avetta's easy-to-use API makes communication across your systems a breeze and empowers you to make better decisions.

### The Benefits

#### Easy-to-use

REST API standard protocol architecture makes it easy to access and implement within your existing ecosystem.

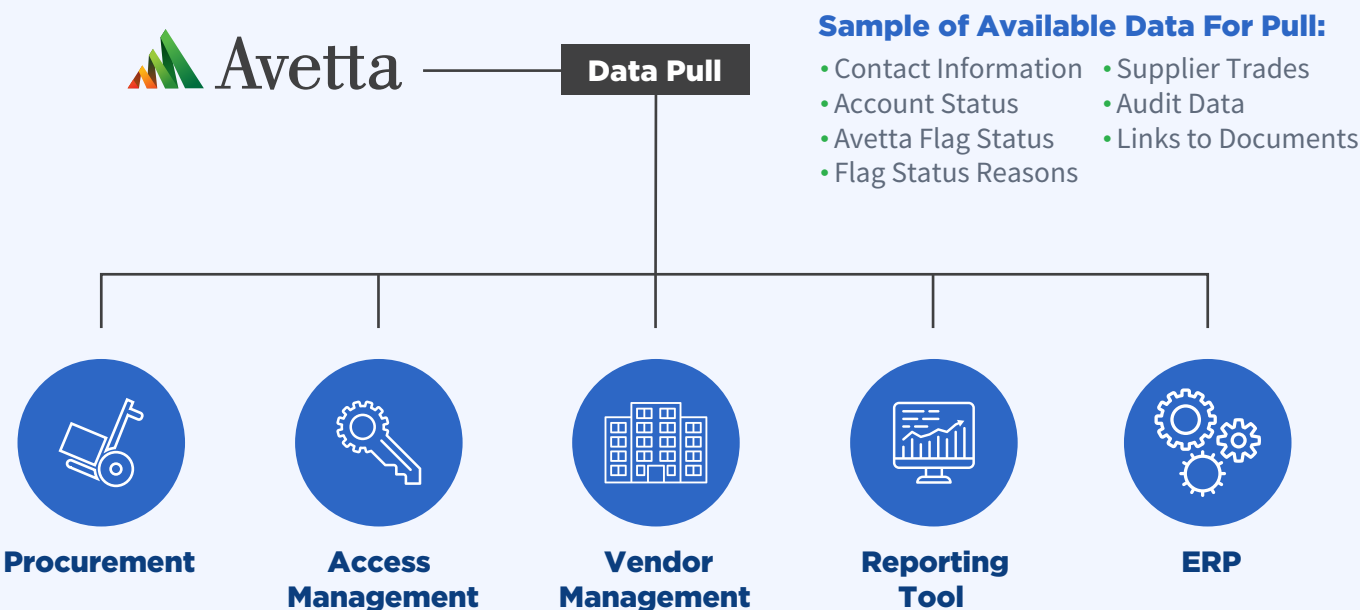

#### Secure

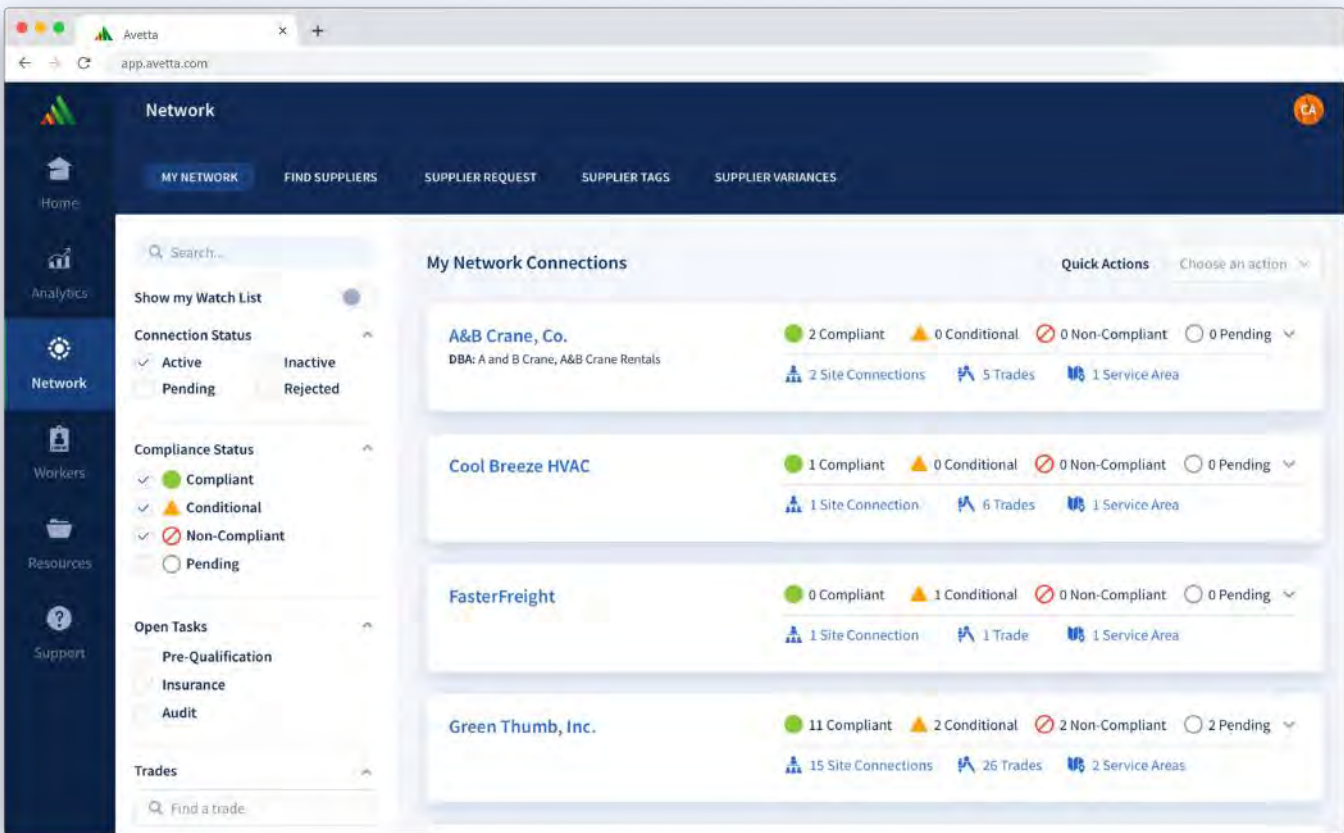

Rest assured that your data is secure with our pull system and API key authentication.

#### Better Decisions

View Avetta's supplier data across platforms for improved decision making, without having to utilize multiple logins.

### How it Works

## See it in Action

The greatest benefit of the Avetta API is simple: Automated Risk Mitigation. We are able to prevent continued use of suppliers that are non-compliant with our business rules, based on the daily feeds from the Avetta platform. - **Sean Murphy, Director of Strategic Sourcing, BlueStream**
